Fall 2022

NOSF celebrates each beginning to a new year by asking families to submit photos of those smiling NOSF students. Sharing these photos of our students in the program, we too feel like a proud parent. The partnership NOSF has with its families and schools is one that is special and unique. As we look back and ahead to this school year, we realize that these first days and moments go by so quickly. Here we are today and look how we have grown in 24 years. The first year was new, exciting and a learning process. Today as we start the "first day of school " too, we are just as grateful and excited as we were back then, to be serving almost 50 partner schools this year.

2022-2023 Scholarships & Schools

As the school year brings us together again, we are happy to share that we awarded 51 new private school scholarships and 110 new homeschool scholarships; that is 161 new students to the NOSF program this school year.

- 48 partner schools: 29 Catholic schools, 15 Christian, 2 Montessori, 1 independent, and 1 Lutheran
- NOSF awarded 161 new scholarships and added 32 siblings
- 513 scholarships awarded
